ENVIRONMENTAL POLICY

CATCON is committed to carrying out its operations in an environmentally responsible manner.

The management and employees of CATCON shall:

- foster a Company-wide commitment to an environmental management system which is in harmony with the principles of acceptable sustainability
- comply with all statutory, legal and contractual requirements governing protection of the environment
- carry out operations and activities in an environmentally sound and safe manner, minimising harm to the environment
- maintain the environmental management system in keeping with changing technology, community standards and client expectations

CATCON commits to:

- developing and implementing sound environmental management objectives (including audit and review activities) for each project
- adopting appropriate measures on each project to minimise environmental harm or impact, and to prevent pollution
- providing appropriate training and resources for personnel to carry out their duties in environmental management
- developing, implementing and reviewing an environmental management system that complies with the requirements of AS/NZS ISO 14001-2004
- working with and assisting suppliers and subcontractors to achieve environmental outcomes that are at least equivalent to the standards that CATCON achieves
- communicating its environmental performance to employees, subcontractors and clients
